

# Hands On Visitor

## COVID-19 Protocols

### We Need Your Support to Keep Visits Safe

We've missed you and look forward to providing your family with an engaging, fun and safe learning experience. With your safety in mind, we've made modifications to our building, exhibits, and practices to follow and exceed local and state guidelines. In addition, we are also incorporating the best practices from leaders in our field.

### Help Us Keep Your Visit Safe

- Please remember that everyone in your party must be well to visit!
- We are limiting visitation to 25% of building capacity to start so that we can ensure appropriate social distancing.
- Advance reservations for 2-hour sessions are required and can be made online by visiting [hocm.org](http://hocm.org)
- Visitors will enter through the Mary Bridge Healthy Family Entry Station to put on masks, wash hands, and check temperatures.
- Please use the new hand washing stations, hand sanitizer, and wipes throughout the museum to keep busy hands clean.
- The WA Secretary of Health has mandated that all staff and visitors ages 5 and older must wear cloth face coverings. [Learn more.](#)
- Please limit the items you bring into the museum to just the essentials – leave strollers and non-essentials in the car. Lockers are available for \$2.
- We're providing floor decals to help all visitors practice social distancing between family groups.
- We've added new activities to the Outdoor Discovery Area for more outdoor play.
- Our café will be limited to "grab and go" items only. Enjoy your food outside of the museum on the beautiful East Bay Plaza after your visit session is over.
